Schools Games 2021, Loughborough, 2-4th September, Under 17 only Basic advanced information

The format of Schools Games has changed and there will no longer be a complete Scotland team competing. The event will be made up of 8 balanced teams with the best athletes in each event from all of the UK. There are lots of U17 Scots who could qualify, but we appreciate things are not normal just now. Below are the proposed standards which should include the top 20 in each event. To count it should be a 2021 legal performance, that means Photo Finish for track and qualified field judges. Do you think this applies to you?

The deadline would be late June, so that's long before any national events take place in Scotland. There are numerous events around the country that might give you the opportunity to post a performance on Power of 10. Have a look at the SA events calendar. Some events may be limited to local clubs.

Please get in touch **if you hope to be considered** and let us know your **chosen event**. If you need help finding a competition please let us know.
